SUPPLEMENT TO PART I. – CROSS-CLASSIFICATIONS OF THE CHARACTERISTICS OF THE POPULATION : RACE

PREFACE

This publication contains particulars of the race of the population recorded at the Census of 30th June, 1954.

The analysis of the characteristic "Race" was not included in the main tabulating programme of the 1954 Census but was done as part of a supplementary tabulating programme. So that the results of this analysis may be conveniently available with other results of the Census they are now presented in summary form as a Supplement to Part I. – Cross-classifications of the Characteristics of the Population, of Volume VIII., Australia.

The numbers of males and females are shown according to their race in each State and Territory of Australia at the 1954 Census but dissections of the State data are not given. Information is also provided (i) for Australia as a whole in comparison with earlier Censuses, (ii) for the metropolitan urban, other urban and rural divisions of Australia and (iii) for Australia as a whole in cross-classification with other characteristics of the population – age, conjugal condition, birthplace and period of residence in Australia of persons born outside Australia.

The extent of the data presented herein may be seen from the Table of Contents which follows this Preface. Separate particulars are given throughout for each sex.

Particulars for each State and Territory are available in respect of all tables but have been shown herein only for total males, females and persons of each race in Table No. 1. Particulars of males and females of each race are available also by local government areas and statistical divisions for each State and Territory. Such additional information may be obtained on inquiry from the Commonwealth Statistician.

In accordance with the general practice in Commonwealth Censuses, particulars of full-blood Australian aboriginals are excluded throughout. Details of half-caste Australian aboriginals are, however, included.

Inside the back cover of this Supplement is a list of 1954 Census publications issued by this Bureau.

Explanatory Notes relative to the contents of the Supplement follow the Table of Contents.

EXPLANATORY NOTES

The term "Race" as used in the tables of this Part is not synonymous with ethnic group but is based on geographical rather than ethnological descriptions. The form of inquiry at the 1954 Census was: "For persons of European Race, wherever born, write 'European'. For non-Europeans state the race to which they belong, for example, 'Aboriginal', 'Chinese', 'Negro', 'Afghan', etc. If the person is half-caste with one parent of European race, write also 'H.C.', for example 'H.C. Aboriginal', 'H.C. Chinese', etc." The complementary instruction was : "In the case of a person both of whose parents are non-European but of different races, state the race of that person's father (and do not add 'H.C.')." This form of inquiry and the instruction are identical with those used at the 1947 Census. It follows that, as the essential distinction is between European and non-European races only, those having European blood to the extent of one half have been classed as half-castes of the non-European race.

The Divisions of State as shown in Table No. 3. – Metropolitan Urban, Other Urban, Rural and Migratory, as defined for purposes of the Census of 1954 are constituted as follows:–

Metropolitan Urban: The Metropolitan Urban Division includes the statistical metropolitan areas of the capital cities of the States and the City of Canberra, the capital city of Australia.

Other Urban: The Other Urban Division comprises the capital city of the Northern Territory, all separately incorporated cities and towns irrespective of size, and all other towns with a population of 1,000 persons or more (750 in Tasmania) outside the Metropolitan Urban Division.

Rural: The Rural Division comprises the remaining portions of each State and Territory.

Migratory: This refers to persons not elsewhere enumerated who at midnight between 30th June and 1st July, 1954 were travelling on ships in Australian waters, or on long distance trains or aircraft.

Age. – In the tables relating to age herein, unspecified ages, i.e., instances where ages have been omitted from the Census schedule, have been distributed prior to tabulation. A detailed explanation of the system employed will be contained in the Statistician's Report.
